

Vinart Dealerships

Vinart Dealerships convenient online research tools, vehicle specials, flexible financing, and professional service and parts support, Vinart Dealerships helps make every stage of the automotive experience simple and rewarding.

The Challenge

The previous provider was unreliable

The group did not want the optional OEM program

The dealership needed stronger support

The solution needed to stay within budget

The Solution

Digital Dealership System provides reliable Customer Lounge TV, service menus, and Dare to Compare boards with better service at a lower cost. Managed lounge programming gives customers a consistent experience without the reliability problems of the previous provider. Service menus and Dare to Compare boards support advisors by making pricing, value, and recommended services easier to communicate. The group receives a broader digital signage program while staying under budget and avoiding the limitations of the optional OEM solution.

The Result

“

Digital Dealership System provided us with a reliable solution that fit within our budget. The transition from our previous system was smooth and straightforward. Since making the switch, we have received a much higher level of service and support. Their team has been easy to work with.

Andy Wright – Managing Partner

”

Customer since 2025. Current solutions: Customer Lounge TVs, Dare to Compare boards, a Service Menu, and Showroom TV.
